Rutagon LLC is a small business delivering cloud infrastructure, DevSecOps, and full-stack software to government agencies and defense contractors. Founder Raul Reutov brings 10+ years of production experience across NASA, FAA, and DHS/USCG-affiliated programs – with a proven track record of rescuing behind-schedule federal projects and shipping on time. Alaska-based with SAM.gov Active registration, CAGE: 19ZR7, UEI: FB2FHEJHM493.

CORE COMPETENCIES

Build and harden cloud systems for federal security requirements

Cloud Infrastructure –

AWS multi-account architecture, Terraform IaC, OIDC-federated CI/CD, Lambda, CloudFront, Aurora Serverless, DynamoDB. GCP-to-AWS migration. Short-lived credentials, zero standing access, least-privilege.

Security in every pipeline – not bolted on after deployment

DevSecOps & Security Automation –

Vulnerability management (Trivy, AquaSec), SAST/DAST, WAF, zero trust, OIDC workload identity, CMMC Level 1 certified (UID: S100050301, assessed 2026-03-30). All 17 FAR 52.204-21 practices implemented.

Production-grade applications delivered on schedule

Full-Stack Software Development –

React, TypeScript, Python, Astro. RESTful APIs. Mobile (iOS/Android). Section 508 accessible. Agile/Scrum. Cloud-native, serverless-first.

ML tooling and real-time data pipelines for operational environments

AI/ML & Systems Integration –

AI/ML service integration, ML data pipelines, real-time analytics. Enterprise integrations: Okta, CrowdStrike, Salesforce. Amazon Robotics AI experience.

Scalable container orchestration across cloud-native services

Containerization & Orchestration –

Docker, Kubernetes (EKS), Helm, container security scanning. GitLab CI / Jenkins, GitOps workflows, IaC-driven deployment.

Actionable insights from operational and security data

Data Analytics & Reporting –

Real-time dashboards, automated reporting pipelines, user access analytics. Enterprise data integrations (Snowflake, Salesforce, Okta, CrowdStrike). ML-ready data pipelines.

PAST PERFORMANCE

Home Services SaaS Platform – iOS, Android & Web

Full-stack marketplace: React + TypeScript, 24 AWS Lambda functions, Aurora Serverless v2, OIDC CI/CD, Terraform IaC, subscription billing. Live on App Store and Google Play. 250+ users.

Alaska Small Business – Website Design, Development & Hosting

Modern website (Astro + Tailwind CSS), AWS Amplify, Route 53, 10 SEO-optimized articles, ongoing managed hosting.

CONTRACT VEHICLES

Open Market / Direct Award

SAM.gov Active – eligible for all simplified acquisitions up to \$350K. CAGE: 19ZR7 · UEI: FB2FHEJHM493. Cyber liability insurance active.

Subcontracting – Available Now

Available as technical sub under primes on IDIQ / GWAC vehicles including OASIS+, CIO-SP4, and Alaska ANC contracts.

Pursuing GSA Multiple Award Schedule (MAS)

IT Category – NAICS 541512 / 541519 · PSC: DA01 · DA10.

 **CLOUD INFRASTRUCTURE**
AWS · Terraform · Serverless

 **DEVSECOPS**
Zero Trust · SAST/DAST · CMMC

 **FULL-STACK DEV**
React · Python · iOS/Android

 **AI / ML**
Pipelines · Integration · Analytics

 **CONTAINERS & ORCHESTRATION**
Kubernetes · Docker · EKS

 **DATA ANALYTICS**
Dashboards · Reporting · Pipelines

WHY RUTAGON

- Rescued 2 behind-schedule federal projects
- Alaska-based – JBER, Eielson, Pacific Command proximity
- Owner-operator, engineers in every meeting
- Modern stack – no legacy Java/COBOL
- AWS Partner Network member
- CMMC Level 1 certified (UID: S100050301)
- Competitive pricing, minimal overhead
